

iLearn Academy Charter School Opens in Yigo

By **Betsy Brown** - January 27, 2015

Robotics and the use of iPads will be integrated into everyday education at the new school

Guam – iLearn Academy Charter School opened its doors to students in Yigo this morning. The island’s second charter school promises to integrate technology into the lesson plans. While enrollment was capped at 358 students only about a hundred are registered so far. The school serves kindergarten to fifth grade. The school will be accepting students through Friday.
